

ENVIRONMENTAL POLICY

Potteries Heavy Haulage Ltd is committed to minimising the impact of its activities on the environment. Continual improvement and the prevention of pollution are seen as prime objectives to be achieved by the company. We will carry out our work in accordance with the relevant statutory provisions using the best practicable methods and we remain committed to the reduction of our environmental impact of our activities.

The key points of our strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise vehicle emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Meet or exceed all the environmental legislation that relates to the Company.
- Regularly maintain and service all company vehicles to ensure their efficiency and minimise GHG emissions.
- Take account of environmental considerations such as developments in fuel and vehicle technology, when acquiring new company vehicles.
- Promote awareness of the Transport Policy amongst employees, sustaining current effective procedures and encouraging good practice in additional areas.

Senior management recognise that they have key responsibility for ensuring that all environmental measures are in place and being implemented by all staff.

The policy together with targets and objectives for improvements will be brought to the attention of all Potteries Heavy Haulage staff, sub-contractors and clients.

The Company will continually review the 'Environmental Policy' on a regular basis to incorporate all new regulations, initiatives and technologies.

Michael Edwards
Managing Director
